### 1.1.1 Document Change Record

#### 1.1.1.1 Changes

Date	Version	author	message
2022-05-10	MS1	Hendrik Oppenberg	Initial version
2022-09-30	MS2	Hendrik Oppenberg	Additional requirements derived in first implementation
2022-12-31	MS3	Christine Glaesser	Additional requirements derived in MS3 phase
2023-04-19	MS4	Hendrik Oppenberg	Added links to candidate requirements and justifications MADR. These links are shown in the PSI-RVM
2023-07-27	MS5	Hendrik Oppenberg	Cleaned up doubly analysed candidate requirements, introduced MONITOR as new requirement category
2023-10-06	MS6	Christine Glaesser	Added descoping comments and assumptions from the joint requirement workshop, added classifications

Date	Version	author	message
2024-01-25	MS7	Hendrik Oppenberg	Improved traceability of candidate requirements and flow-down. Improved understandings and assumptions.
2024-09-11	MS8 [1.2.0]	Hendrik Oppenberg	Public release adjustments.
2024-12-09	MS9 [1.2.1]	Christian Grubert	Added mission API requirements.
2025-02-03	MS10 [1.2.2]	Wolfgang Robben	No update, just version bump.

## 2 Introduction

The Pooling & Sharing Interfaces Definitions (PSID) project is an ESA co-funded effort to define a common standard for the interfaces of Pooling & Sharing Systems (PSS) for Satellite Communication (SatCom) services. A PSS is a digital platform for matchmaking (Gov)SatCom users' demands (both commercial and institutional) with (Gov)SatCom providers' offers. Bringing together multiple (Gov)SatCom providers in one platform makes the market transparent, thus allowing users to get an overview of the market and to compare different offers efficiently. Additionally, a PSS assists users with little knowledge about the (Gov)SatCom domain defining their requirements on the (Gov)SatCom services. Those two aspects combined allow for fast access to the services and an efficient usage of the available capacities. To accomplish this, a PSS steps in between the usual processes of finding a provider/supplier, requesting an offer, and ordering the desired products or services, either as a service broker or by pooling products and services from different providers and offering them as an intermediary or distributor. Subsequently, the PSS can be used to monitor the services and manage multiple missions in a single application.

Eventually, a PSS can also be used as (or manage) a community hub, i.e., a number of end users or customers with similar interest that *share* their common resources and utilize a commonly obtained *pool* of (Gov)SatCom capacities. This strategy increases the efficient usage of scarce resources further.

There are already different approaches on PSSs, that might lead to an unnecessary fragmentation of the market. Therefore, a common standard for the interfaces of a PSS is required to allow the interaction between those different PSSs and reduce the effort of (Gov)SatCom providers to offer their product and services via multiple PSSs to maximize their reach.

Such a standard needs to take care of the different interfaces involved in the aforementioned processes, i.e.,

1. an interface between PSS and resource providers (satellite operators, service providers, or other PSSs),
2. an interface between the PSS and users, and
3. an interface between PSS and its own governance.

The goal of this project is to mainly define aspect 1 and to develop a software mock-up as needed to validate the various interfaces being developed.

The PSI standard derives from the existing industry-standard "Open Digital Framework" of **TM Forum** alliance<sup>1</sup>. The "Open Digital Framework" is a reference framework for delivering online Information, Communications and Entertainment services to the telecom world. It empowers market participants to compete and cooperate. One of PSI's goals is to make this existing standard fit for the world of satellite communication.

The consortium for this project consists of the service & technology providers SES Techcom and CGI, as well as of the (Gov)SatCom operators SES, Hellas Sat, Hispasat, Hisdesat, and LuxGovSat, and Inmarsat being both a service & technology provider and a (Gov)SatCom operator.

<sup>1</sup> See <https://www.tmforum.org/resources/reference/gb991-tm-forums-core-concepts-and-principles-v22-0-0/>

Figure 2.1: The PSI consortium.

## 2.1 Document Scope

This document contains requirements defined to the Pooling And Sharing Interfaces Standardisation Project (PSI).

### 2.1.1 Compiled Document

**NOTE:** THIS IS A COMPILED DOCUMENT <sup>2</sup>

This document has been compiled/generated from external sources and is not being written as-is. Therefore, any changes made within this compiled version of the document will be lost upon recompilation!

To make (permanent) changes, edit the respective sources directly or contact the PSID team.

### 2.1.2 Signature

Changes to this document are tracked electronically. No signature is required by the authors. The information in the “Source Control” chapter can prove the integrity of the document and reveal any change.

<sup>2</sup>Document compiled on 2025-02-12 11:47.

## 2.1.3 Development State

Current document version is 1.2.2.

Next version is targeted for 2025-04-01.

## 2.1.4 PSI Release Notes

### 2.1.4.1 Introduction

Welcome to the third release of the Pooling and Sharing Interface API! Below, you'll find details about the features, enhancements, and other important aspects of this release.

### 2.1.4.2 Key Highlights

The focus of this release lies on **mission management**, to facilitate a common understanding of user requirement towards communication. It aims to complement the Inquiry API by providing workflows and *understanding* to service requirements. This is mainly a user-oriented API, but it also enables exchange of mission data between PSS systems and therefore cross-platform-market places. This could become a future focal point. Such data exchange would include actual user requirements (expressed as missions), as well as templates for such missions. By the use of templates, user mission creation is streamlined and allows a governance to safeguard, streamline or ease the process of user requirement gathering.

Together with the APIs, we are working on a Plug&Play component for P&S systems (Hubs, Brokers, Market-places...), based on ODA. This will be a standalone Micro-Frontend open to be integrated into existing OSS/B-SS/PSS systems. A first draft is included in this release.

It will come with different views:

- Time based (e.g. mission timeline, Gantt-Chart, to express that is needed *when*)
- Geography based (e.g. mission zones or network nodes on a map to express what is needed *where*)
- Logical View (e.g. communication interdependency graph to express *how* the requirements will look like)

Another area of improvement is the **performance management API**.

A new API has been added that allows to request performance reports to an ongoing mission from the provider. That is: the report itself is generated on provider's systems. The API handles the request and exchange of the report. The report has to be in line with the product's SLA and allows monitoring of compliance. It allows also to define alarm thresholds and receive a push of threshold violations by the provider, avoiding a constant pull.

We also added the technical considerations and resulting decisions to the document set. This allows easier future evolution and maintenance of the standard.

### 2.1.4.3 What's New

- [PSI-GID] now contains descriptions about the ODA component for mission management
- [PSI-ICD] now contains new and updated APIs - see below!
- [PSI-ADR] first release of our decision records

- [PSI-TAD] now contains descriptions of concepts for user missions, as well as performance and alarm management
- [PSI-TOD] now contains new tasks and operations for user missions, performance and alarm management

#### 2.1.4.3.1 Newly added APIs

- PSID002 Mission Management
- This customer-facing API allows them to manage missions and assign products, services and resources to them.
- It can also serve as an entry point for the Customer Inquiry API to find matching products for their requirements.
- PSID143 Performance Monitoring
- Based on MEF143 - Performance Monitoring API (Version 2.0.0-RC).
- The performance monitoring allows a PSS or customer to request performance reports from a provider.
- PSID642 Alarm
- Based on TMF642 - Alarm API (Version 4.1.0).
- Allows the provider to notify a PSS or customer about detected problems with their products.

#### 2.1.4.3.2 Updates APIs

- PSID001 Customer Inquiry
- Improved handling of places by adapting TMF Geography types.
- PSID620 Product Catalog
- Based on TMF620 - Product Catalog Management API (Version 4.1.0).
- Changed `SLARef` to `ServiceLevelSpecificationRef`
- Streamlined GeoJSON types
- PSID633 Service Catalog
- Based on TMF633 - Service Catalog Management API (Version 4.1.0).
- Changed `SLARef` to `ServiceLevelSpecificationRef`
- Streamlined GeoJSON types
- PSID634 Resource Catalog
- Based on TMF634 - Resource Catalog Management API (Version 4.1.0).
- Changed `SLARef` to `ServiceLevelSpecificationRef`
- Streamlined GeoJSON types
- PSID657 Service Quality Management
- Based on TMF657 - Service Quality Management API (Version 4.1.0).
- Add endpoints to manage KPIs that are supported by the PSS.

### 2.1.4.3.3 Added Requirements

- MISSION requirement category
- REQ-06-03 Key Indicator Management
- REQ-06-04 Performance Monitoring Job Management
- REQ-06-05 Performance Monitoring Report Management
- REQ-06-06 Alarm Management

### 2.1.4.4 Known Limitations

1. The Service Quality Management is rather basic. There is an ongoing effort to align this set of APIs with the results of a TM Forum Catalyst project. More information will follow in one of the next releases.
2. The Mission Management Service is at an early state. However, the available API implements basic mission management services, import and export. A full set of APIs to implement such a service are subject to an upcoming release. Refer also the [PSI-GID] to learn about the available API use cases.

## 2.1.5 Outlook

Currently, we are working on the next release with the following focal points:

- Finalize the mission management component
- Update the API baseline to TM Forum 5
- Converge with MEF schema for some selected APIs

## 2.1.6 Feedback and Contributions

We value your feedback! If you encounter any issues or have suggestions, please reach out. Additionally, we welcome contributions from the community.

## 3 Requirement Categories

The PSI Requirements are written along the project specific terminology and definitions. Please refer to the PSI Terms, Abbreviations & Definitions [PSI-TAD] for more information.

For clarity and ease of use, all PSI requirements are grouped by the corresponding endpoint of the interface and then enumerated corresponding to the [PSI-TOD]. Additionally, they are tagged according to their core semantic with one or more category. The categories are listed and described in the table below.

Category	Description
MISSION	Requirements on missions
INQUIRY	Requirements on customer inquiries
PARTY	Requirements on party management (individuals, organizations)
POOLING	Requirements on pooling of resources, services, and products
SEC	Requirements on security
ORDER	Requirements on product ordering
DOC	Requirements on managing documents as attachments
TICKET	Requirements on managing trouble tickets
MONITOR	Requirements on managing service monitoring

Table 3.1: PSID Requirement Categories

### 3.1 Interfaces

A PSS has at least four different actors they need to interact with:

- Providers (satellite operators, (Gov)SatCom service providers)
- Other Pooling & Sharing Systems
- Users
- Governance (the operator of the PSS and their staff)

Towards deducing the interfaces that implement a given PSI requirement, the diagram in the respective operation in the [PSI-TOD] should be consulted. The diagram demonstrates graphically who takes the role of a server for the REST endpoints and who are the actors that consume them, taking over the role of a client.

For example, if the server is the PSS and the clients are the customers, providers, and other PSS, the requirement relates to the PSS-user I/F, the PSS-provider I/F, and the PSS-PSS I/F respectively.

### 3.2 RFC 2119 Phrasing

Several words are used to signify the requirements in the specification. The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL”

in this document are to be interpreted as described in RFC 2119.

1. **MUST** This word, or the terms “REQUIRED” or “SHALL”, mean that the definition is an absolute requirement of the specification.
2. **MUST NOT** This phrase, or the phrase “SHALL NOT”, mean that the definition is an absolute prohibition of the specification.
3. **SHOULD** This word, or the adjective “RECOMMENDED”, mean that there may exist valid reasons in particular circumstances to ignore a particular item, but the full implications must be understood and carefully weighed before choosing a different course.
4. **SHOULD NOT** This phrase, or the phrase “NOT RECOMMENDED” mean that there may exist valid reasons in particular circumstances when the particular behaviour is acceptable or even useful, but the full implications should be understood and the case carefully weighed before implementing any behaviour described with this label.
5. **MAY** This word, or the adjective “OPTIONAL”, mean that an item is truly optional. One vendor may choose to include the item because a particular marketplace requires it or because the vendor feels that it enhances the product while another vendor may omit the same item. An implementation which does not include a particular option **MUST** be prepared to interoperate with another implementation which does include the option, though perhaps with reduced functionality. In the same vein an implementation which does include a particular option **MUST** be prepared to interoperate with another implementation which does not include the option (except, of course, for the feature the option provides.)

## 4 PSI Requirements

The PSI requirements are derived requirements and have been engineered in the course of project execution.

### 4.1 REQ-01-Miscellaneous

#### 4.1.1 REQ-01-01-Party\_Management

##### 4.1.1.1 REQ-01-01-01-Create\_Party\_Profile

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-01-01-01</b>	The interface shall allow an individual to register as a party to a PSS.	-	P&S_002	PARTY
<b>PSI-01-01-01-02</b>	The interface shall allow an organization to register as a party to a PSS.	-	P&S_002	PARTY
<b>PSI-01-01-01-03</b>	The interface shall allow an organization to register its sub-organization(s) in hierarchical layers.	Role inheritance by the sub-organizations and individuals is enabled by the API. The usage of such is however within the scope of the PSS implementation.	P&S_138, P&S_140	PARTY
<b>PSI-01-01-01-04</b>	The interface shall allow an organization to register its associated community of individuals (users).	-	P&S_138, P&S_140, P&S_194	PARTY
<b>PSI-01-01-01-05</b>	The interface shall allow the governance to register a party to a PSS.	-	P&S_002	PARTY
<b>PSI-01-01-01-06</b>	The interface shall allow the store contract relevant information about a party.	This could be accessible pools, SLA-Information of the PSS itself or other capabilities available to the party.	P&S_024	PARTY

Table 4.1: Requirements for creating a party profile.

## 4.1.1.2 REQ-01-01-02-Update\_Party\_Profile

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-01-02-01</b>	The interface shall allow an individual to update the existing party in a PSS.	-	-	PARTY
<b>PSI-01-01-02-02</b>	The interface shall allow an individual to update only their party in the PSS.	-	-	PARTY, SEC
<b>PSI-01-01-02-03</b>	The interface shall allow an organization to update the existing party in a PSS.	-	-	PARTY, SEC
<b>PSI-01-01-02-04</b>	The interface shall allow an organization to update only their party in the PSS.	-	-	PARTY, SEC
<b>PSI-01-01-02-05</b>	The interface shall allow an organization to register its sub-organization(s) in hierarchical layers.	Role inheritance by the sub-organizations and individuals is enabled by the API. The usage of such is however within the scope of the PSS implementation.	P&S_138, P&S_140	PARTY
<b>PSI-01-01-02-06</b>	The interface shall allow an organization to specify its associated community of individuals (users).	-	P&S_138, P&S_140	PARTY
<b>PSI-01-01-02-07</b>	The interface shall allow the governance to update an existing party in a PSS.	-	-	PARTY

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-01-02-08</b>	The interface shall allow the governance to set the response time for orders and inquiries of an existing organization party (i.e. provider) in a PSS.	The governance uses the response time to enforce the respective provider organization to respond according to their SLA.	P&S_019	PARTY
<b>PSI-01-01-02-09</b>	The interface shall allow the governance to set the maximum priority for inquiries of an existing party (i.e. customer) in a PSS.	-	-	PARTY

Table 4.2: Requirements for updating a party profile.

#### 4.1.1.3 REQ-01-01-03-Remove\_Party\_Profile

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-01-03-01</b>	The interface shall allow an individual to delete the existing party or mark it as invalid in a PSS.	-	-	PARTY
<b>PSI-01-01-03-02</b>	The interface shall allow an individual to delete only their party in the PSS.	-	-	PARTY, SEC
<b>PSI-01-01-03-03</b>	The interface shall allow an organization to delete the existing party or mark it as invalid in a PSS.	-	-	PARTY
<b>PSI-01-01-03-04</b>	The interface shall allow an organization to delete only their party in the PSS.	-	-	PARTY, SEC
<b>PSI-01-01-03-05</b>	The interface shall allow the governance to delete an existing party or mark it as invalid in a PSS.	-	-	PARTY

Table 4.3: Requirements for deleting a party profile.

## 4.1.1.4 REQ-01-01-04-View\_Party\_Profile

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-01-04-01</b>	The interface shall allow an individual to retrieve the existing party from a PSS.	-	-	PARTY
<b>PSI-01-01-04-02</b>	The interface shall allow an individual to access only their party in the PSS.	-	-	PARTY, SEC
<b>PSI-01-01-04-03</b>	The interface shall allow an organization to retrieve the existing party from a PSS.	-	-	PARTY
<b>PSI-01-01-04-04</b>	The interface shall allow an organization to access only their party in the PSS.	-	-	PARTY, SEC
<b>PSI-01-01-04-05</b>	The interface shall allow the governance to retrieve an existing party from a PSS.	-	-	PARTY

Table 4.4: Requirements for viewing a party profile.

#### 4.1.1.5 REQ-01-01-05-View\_All\_Party\_Profiles

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-01-05-01</b>	The interface shall allow the governance to retrieve all parties from a PSS.	-	-	PARTY
<b>PSI-01-01-05-02</b>	The interface shall allow an organization to retrieve all associated parties from a PSS.	-	-	PARTY

Table 4.5: Requirements for viewing all party profiles.

## 4.1.2 REQ-01-02-Event\_Management

### 4.1.2.1 REQ-01-02-01-View\_Event\_Topics

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-02-01-01</b>	The interface shall allow other systems to retrieve a list of event topics.	-	-	-
<b>PSI-01-02-01-02</b>	The interface shall offer at least the event topics “order” and “inquiry”.	-	-	-

Table 4.6: Requirements for viewing event topics.

#### 4.1.2.2 REQ-01-02-02-Register\_Event\_Callback

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-02-02-01</b>	The interface shall allow other systems to register callbacks for event topics.	-	-	-
<b>PSI-01-02-02-02</b>	The interface shall allow the optional specification of filter queries for callbacks.	-	-	-
<b>PSI-01-02-02-03</b>	The implementation shall reject callback URLs with unknown hosts.	-	-	-

Table 4.7: Requirements for registering an event callback.

## 4.1.2.3 REQ-01-02-03-Dispatch\_Event

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-02-03-01</b>	The interface shall allow receiving events from other systems.	-	-	-
<b>PSI-01-02-03-02</b>	The interface shall allow exchange of entity data within events.	-	-	-
<b>PSI-01-02-03-03</b>	The sender implementation shall filter receivers by event topics.	-	-	-
<b>PSI-01-02-03-04</b>	The sender implementation shall filter receivers on a need-to-know basis.	-	-	-
<b>PSI-01-02-03-05</b>	The sender implementation shall filter receivers based on their filter query.	-	-	-
<b>PSI-01-02-03-06</b>	The sender implementation must apply an exponential back-off strategy for rejected events.	-	-	-
<b>PSI-01-02-03-07</b>	The sender implementation may halt event transmission to broken callbacks for manual resumption.	-	-	-
<b>PSI-01-02-03-08</b>	The sender implementation must always send events in the original timely order.	-	-	-
<b>PSI-01-02-03-09</b>	The sender implementation must authenticate with the target host before sending an event.	-	-	-

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
---------	-------------	-------------------------	--------------------------------	----------

Table 4.8: Requirements for dispatching events.

#### 4.1.2.4 REQ-01-02-04-Deregister\_Event\_Callback

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-02-04-01</b>	The interface shall allow other systems to unregister their already registered callbacks for event topics.	-	-	-

Table 4.9: Requirements for unregistering an event callback.

### 4.1.3 REQ-01-03-Document\_Management

#### 4.1.3.1 REQ-01-03-01-Create\_Document

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-01-01</b>	The interface shall allow a party to create a document in a PSS.	-	-	DOC

Table 4.10: Requirements for creating a document.

#### 4.1.3.2 REQ-01-03-02-Update\_Document

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-02-01</b>	The interface shall allow a party to update an existing document in a PSS.	-	-	DOC
<b>PSI-01-03-02-02</b>	The interface shall allow a party to control write access to a document they have created in a PSS.	-	-	DOC, SEC

Table 4.11: Requirements for updating a document.

#### 4.1.3.3 REQ-01-03-03-Remove\_Document

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-03-01</b>	The interface shall allow a party to delete or mark an existing document from a PSS as invalid.	-	-	DOC
<b>PSI-01-03-03-02</b>	The interface shall allow a party to delete only documents they have created in a PSS.	-	-	DOC, SEC
<b>PSI-01-03-03-03</b>	The implementation shall cascade the deletion of a document to all associated attachments.	-	-	DOC

Table 4.12: Requirements for deleting a document.

#### 4.1.3.4 REQ-01-03-04-View\_Document

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-04-01</b>	The interface shall allow a party to retrieve a document from a PSS.	-	-	DOC
<b>PSI-01-03-04-02</b>	The interface shall allow a party to control read access to a document they have created in a PSS.	-	-	DOC, SEC

Table 4.13: Requirements for viewing a document.

#### 4.1.3.5 REQ-01-03-05-View\_All\_Documents

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-05-01</b>	The interface shall allow a party to retrieve all documents that are applicable to them in a PSS.	-	-	DOC

Table 4.14: Requirements for viewing all documents.

#### 4.1.3.6 REQ-01-03-06-Create\_Attachment

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-06-01</b>	The interface shall allow a party to create and transfer an attachment to a PSS.	-	-	DOC
<b>PSI-01-03-06-02</b>	The attachment shall be added as part of an existing document.	-	-	DOC
<b>PSI-01-03-06-03</b>	The interface shall allow a party to specify the mime type of the attachment (e.g. application/pdf, application/msword, image/jpeg, etc.).	-	-	DOC

Table 4.15: Requirements for creating an attachment.

#### 4.1.3.7 REQ-01-03-07-Update\_Attachment

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-07-01</b>	The interface shall allow a party to update an existing attachment of a document in a PSS.	-	-	DOC
<b>PSI-01-03-07-02</b>	The interface shall allow a party to control write access to an attachment they have created in a PSS.	-	-	DOC, SEC

Table 4.16: Requirements for updating an attachment.

#### 4.1.3.8 REQ-01-03-08-Remove\_Attachment

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-08-01</b>	The interface shall allow a party to delete or mark an existing attachment of a document from a PSS as invalid.	-	-	DOC
<b>PSI-01-03-08-02</b>	The interface shall allow a party to delete only attachments they have created in a PSS.	-	-	DOC, SEC

Table 4.17: Requirements for removing an attachment.

#### 4.1.3.9 REQ-01-03-09-View\_Attachment

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-09-01</b>	The interface shall allow a party to view an existing attachment object of a document from a PSS.	-	-	DOC
<b>PSI-01-03-09-02</b>	The interface shall allow a party to control read access to an attachment that they have created in a PSS.	-	-	DOC, SEC

Table 4.18: Requirements for viewing a document.

#### 4.1.3.10 REQ-01-03-10-View\_All\_Attachments

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-10-01</b>	The interface shall allow a party to retrieve a list of all existing attachments of a document that they have created or are applicable to them in a PSS.	-	-	DOC

Table 4.19: Requirements for viewing all attachments.

#### 4.1.3.11 REQ-01-03-11-Fetch\_Attachment\_Content

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-11-01</b>	The interface shall allow a party to retrieve the binary content for preview of an existing attachment of a document from a PSS.	-	-	DOC
<b>PSI-01-03-11-02</b>	The interface shall allow a party to control read access to the binary content of an attachment that they have created in a PSS.	-	-	DOC, SEC

Table 4.20: Requirements for viewing an attachment content.

## 4.1.3.12 REQ-01-03-12-Update\_Attachment\_Content

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-01-03-12-01</b>	The interface shall allow a party to update the binary content of an existing attachment of a document in a PSS.	-	-	DOC
<b>PSI-01-03-12-02</b>	The interface shall allow a party to control write access to the binary content of an attachment they have created in a PSS.	-	-	DOC, SEC

Table 4.21: Requirements for updating an attachment content.

## 4.2 REQ-02-Product-Publishing

### 4.2.1 REQ-02-01-Resource\_Catalog\_Management

#### 4.2.1.1 REQ-02-01-01-Create\_Resource\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-01-01-01</b>	The interface shall allow a party to register a resource specification to a PSS.	The provider is enabled to upload services and resources, covering their specifications, to a PSS. As the same endpoint is provided to user parties, declaration of user owned assets to the PSS is enabled, too.	P&S_005, P&S_050, P&S_051, P&S_054, P&S_057, P&S_059, P&S_191	POOLING
<b>PSI-02-01-01-02</b>	The interface shall ensure that the resource specifications are organised into a resource catalog according to resource types.	-	-	POOLING
<b>PSI-02-01-01-03</b>	The interface shall allow the specification of footprints in GeoJSON format.	-	P&S_061, P&S_084	POOLING
<b>PSI-02-01-01-04</b>	The implementation shall reject the specification if it does not match the schema.	-	P&S_056	POOLING

Table 4.22: Requirements for creating a resource specification.

#### 4.2.1.2 REQ-02-01-02-Update\_Resource\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-01-02-01</b>	The interface shall allow a party to update an existing resource specification in a PSS.	-	P&S_050, P&S_051	POOLING
<b>PSI-02-01-02-02</b>	The interface shall allow a party to control write access to a resource specification they have created in the PSS.	-	-	POOLING, SEC

Table 4.23: Requirements for updating a resource specification.

#### 4.2.1.3 REQ-02-01-03-Remove\_Resource\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-01-03-01</b>	The interface shall allow a party to delete or mark an existing resource specification from a PSS as invalid.	-	P&S_050, P&S_051	POOLING
<b>PSI-02-01-03-02</b>	The interface shall allow a party to delete only resource specifications they have created in the PSS.	-	-	POOLING, SEC

Table 4.24: Requirements for deleting a resource specification.

#### 4.2.1.4 REQ-02-01-04-View\_Resource\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-01-04-01</b>	The interface shall allow a party to retrieve a resource specification from a PSS.	-	-	POOLING
<b>PSI-02-01-04-02</b>	The interface shall allow a party to control read access to a resource specification they have created in the PSS.	-	-	POOLING, SEC

Table 4.25: Requirements for viewing a resource specification.

#### 4.2.1.5 REQ-02-01-05-View\_All\_Resource\_Specifications

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-01-05-01</b>	The interface shall allow a party to retrieve all resource specifications that are applicable to them in a PSS.	-	P&S_005	POOLING
<b>PSI-02-01-05-02</b>	The interface shall allow a party to filter resource specifications at least by a resource type, region and frequency band (if applicable).	Allows the creation of statistics about coverage in different geographical areas.	P&S_117, P&S_118	POOLING

Table 4.26: Requirements for viewing all resource specifications.

## 4.2.2 REQ-02-02-Service\_Catalog\_Management

### 4.2.2.1 REQ-02-02-01-Create\_Service\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-02-01-01</b>	The interface shall allow a party to register a service specification to a PSS.	-	P&S_050, P&S_051, P&S_054, P&S_057	POOLING
<b>PSI-02-02-01-02</b>	The interface shall ensure that the service specifications are organised into a service catalog according to service types.	-	-	POOLING
<b>PSI-02-02-01-03</b>	The interface shall allow the specification of service areas in GeoJSON format.	-	P&S_061, P&S_084	POOLING
<b>PSI-02-02-01-04</b>	The implementation shall reject the specification if it does not match the schema.	-	P&S_056	POOLING

Table 4.27: Requirements for creating service specification.

#### 4.2.2.2 REQ-02-02-02-Update\_Service\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-02-02-01</b>	The interface shall allow a party to update an existing service specification in a PSS.	-	P&S_050, P&S_051	POOLING
<b>PSI-02-02-02-02</b>	The interface shall allow a party to control write access to the service specifications they have created in the PSS.	-	-	POOLING, SEC

Table 4.28: Requirements for updating service specification.

#### 4.2.2.3 REQ-02-02-03-Remove\_Service\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-02-03-01</b>	The interface shall allow a party to delete or mark an existing service specification from a PSS as invalid.	-	P&S_050, P&S_051	POOLING
<b>PSI-02-02-03-02</b>	The interface shall allow a party to delete only service specifications they have created in the PSS.	-	-	POOLING, SEC

Table 4.29: Requirements for deleting service specification.

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-03-02-01</b>	The interface shall allow a party to update an existing product specification in a PSS.	-	P&S_050, P&S_051	POOLING
<b>PSI-02-03-02-02</b>	The interface shall allow a party to control write access to a product specification they have created in the PSS.	-	-	POOLING, SEC

Table 4.33: Requirements for updating a product specification.

#### 4.2.3.3 REQ-02-03-03-Remove\_Product\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-03-03-01</b>	The interface shall allow a party to delete or mark an existing product specification from a PSS as invalid.	-	P&S_050, P&S_051	POOLING
<b>PSI-02-03-03-02</b>	The interface shall allow a party to delete only a product specification they have created in the PSS.	-	-	POOLING, SEC

Table 4.34: Requirements for removing a product specification.

#### 4.2.3.4 REQ-02-03-04-View\_Product\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-03-04-01</b>	The interface shall allow a party to retrieve a product specification from a PSS.	-	-	POOLING
<b>PSI-02-03-04-02</b>	The interface shall allow a party to control read access to the product specifications they have created in the PSS.	-	-	POOLING, SEC
<b>PSI-02-03-04-03</b>	The implementation shall calculate the accessibility of a product specification based on the required resources.	-	P&S_038	POOLING

Table 4.35: Requirements for viewing a product specification.

#### 4.2.3.5 REQ-02-03-05-View\_All\_Product\_Specifications

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-03-05-01</b>	The interface shall allow a party to retrieve all product specifications that are applicable to them in a PSS.	-	P&S_005	POOLING

Table 4.36: Requirements for viewing all product specifications.

## 4.2.4 REQ-02-04-Product\_Offering\_Management

### 4.2.4.1 REQ-02-04-01-Create\_Product\_Offering

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-04-01-01</b>	The interface shall allow a party to register a product offering with a price value to a PSS.	-	P&S_034, P&S_035	POOLING
<b>PSI-02-04-01-02</b>	The interface shall allow a party to specify the access probability of a product offering.	-	P&S_063, P&S_064	POOLING

Table 4.37: Requirements for creating a product offering.

#### 4.2.4.2 REQ-02-04-02-Update\_Product\_Offering

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-04-02-01</b>	The interface shall allow a party to update an existing product offering in a PSS.	-	P&S_034, P&S_035	POOLING
<b>PSI-02-04-02-02</b>	The interface shall allow a party to control write access to a product offering they have created in the PSS.	-	-	POOLING, SEC
<b>PSI-02-04-02-03</b>	The interface shall allow a party to update the access probability of a product offering.	-	P&S_065	POOLING
<b>PSI-02-04-02-04</b>	The implementation may allow the governance to update the access probability based on collected statistics.	-	P&S_067	POOLING

Table 4.38: Requirements for updating a product offering.

#### 4.2.4.3 REQ-02-04-03-Remove\_Product\_Offering

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-04-03-01</b>	The interface shall allow a party to delete or mark an existing product offering from a PSS as invalid.	-	P&S_034, P&S_035	POOLING
<b>PSI-02-04-03-02</b>	The interface shall allow a party to delete only product offerings they have created themselves in the PSS.	-	-	POOLING, SEC

Table 4.39: Requirements for deleting a product offering.

#### 4.2.4.4 REQ-02-04-04-View\_Product\_Offering

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-04-04-01</b>	The interface shall allow a party to retrieve a product offering from a PSS.	-	P&S_034, P&S_035	POOLING
<b>PSI-02-04-04-02</b>	The interface shall allow a party to control read access to the product offering they have created in the PSS.	-	-	POOLING, SEC

Table 4.40: Requirements for viewing a product offering.

#### 4.2.4.5 REQ-02-04-05-View\_All\_Product\_Offerings

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-02-04-05-01</b>	The interface shall allow a party to retrieve all product offerings that are applicable to them in a PSS.	This allows to monitor active missions, reservations and orders, if a monitoring system is included in a PSS.	P&S_034, P&S_035, P&S_201	POOLING

Table 4.41: Requirements for viewing all product offerings.

## 4.3 REQ-03-Product\_Inquiry\_And\_Ordering

### 4.3.1 REQ-03-01-Customer\_Inquiry\_Management

#### 4.3.1.1 REQ-03-01-01-Create\_Customer\_Inquiry

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-01-01-01</b>	The interface shall allow a customer to create an inquiry in a PSS.	-	-	INQUIRY
<b>PSI-03-01-01-02</b>	The implementation shall publish the creation of inquiries to all participating providers using the Event API.	-	P&S_059, P&S_062, P&S_102	POOLING
<b>PSI-03-01-01-03</b>	The implementation should filter the list of participating providers sent to them.	While the list in the PSS contains all providers, the message sent to provider A does only contain their entry, not the one of provider B and C. This has to be merged correctly when updates are received.	-	POOLING
<b>PSI-03-01-01-04</b>	The interface shall allow a PSS to send a customer profile to the provider.	This allows the forwarding of selected fields (e.g. allowed security grade, service grade determined by security and availability) without exposing the whole profile, as well as other characteristics like the customer priority.	P&S_004, P&S_068, P&S_094, P&S_141, P&S_145, P&S_146, P&S_148, P&S_187	INQUIRY
<b>PSI-03-01-01-05</b>	The interface shall indicate the maximum response time for an inquiry.	-	P&S_019	INQUIRY

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-01-01-06</b>	The interface may indicate the minimum and/or average response time for an inquiry.	-	-	INQUIRY
<b>PSI-03-01-01-07</b>	The interface shall allow the definition of different features (on service layer L0/L1/L2/L3) in an inquiry.	-	P&S_028	INQUIRY
<b>PSI-03-01-01-08</b>	The interface shall allow the definition of geographies for every applicable feature in an inquiry.	-	P&S_026	INQUIRY
<b>PSI-03-01-01-09</b>	The interface shall allow the definition of the desired frequency band for every applicable feature in an inquiry.	-	P&S_027	INQUIRY
<b>PSI-03-01-01-10</b>	The interface shall allow the definition of forward/return information rates (committed and peak) for every applicable feature in an inquiry.	-	P&S_030	INQUIRY
<b>PSI-03-01-01-11</b>	The interface shall allow the definition of the service period for every requested feature in an inquiry.	-	P&S_086, P&S_087, P&S_088	INQUIRY
<b>PSI-03-01-01-12</b>	The interface shall allow a partial match on single feature characteristics (best-effort option).	-	P&S_103	INQUIRY

Table 4.42: Requirements for creating a customer inquiry.

## 4.3.1.2 REQ-03-01-02-View\_Customer\_Inquiry

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-01-02-01</b>	The interface shall allow a party to retrieve a customer inquiry from a PSS.	-	-	INQUIRY
<b>PSI-03-01-02-02</b>	The interface shall allow a customer and target provider(s) to control read access to an inquiry that is applicable to them in the PSS.	-	-	INQUIRY, SEC
<b>PSI-03-01-02-03</b>	The interface shall indicate the processing status of an inquiry.	-	-	INQUIRY
<b>PSI-03-01-02-04</b>	The interface shall allow providers to add general notes to their inquiry response.	-	P&S_142a	INQUIRY

Table 4.43: Requirements for viewing a customer inquiry.

## 4.3.1.3 REQ-03-01-03-View\_Inquiry\_Results

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-01-03-01</b>	The interface shall allow a customer to view the product offerings matching their inquiry.	-	P&S_024, P&S_099, P&S_103, P&S_188	INQUIRY
<b>PSI-03-01-03-02</b>	The interface shall allow a customer to view the product specifications matching their inquiry.	-	-	INQUIRY
<b>PSI-03-01-03-03</b>	The interface shall allow a customer to view the service specifications matching their inquiry.	-	-	INQUIRY
<b>PSI-03-01-03-04</b>	The interface shall allow a customer to view the resource specifications matching their inquiry.	-	-	INQUIRY
<b>PSI-03-01-03-05</b>	If no results are available, the interface shall indicate the reason using specified HTTP status codes.	The reason could be that the inquiry was not yet processed (204, no content) or that no matches were found (200 with empty array)	P&S_104	INQUIRY
<b>PSI-03-01-03-06</b>	The interface may block up to 20 seconds if results are calculated by an algorithm.	Used instead of returning the 204 code to avoid busy waiting.	-	INQUIRY
<b>PSI-03-01-03-07</b>	The interface shall return relevant security and availability information for each inquiry results.	-	P&S_048	INQUIRY
<b>PSI-03-01-03-08</b>	The interface shall allow the provider to add notes to inquiry results.	-	P&S_142a	INQUIRY

## 4.3.1.4 REQ-03-01-04-Update\_Customer\_Inquiry

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-01-04-01</b>	The interface shall allow a customer to update the list of inquired providers of an existing customer inquiry in a PSS.	-	-	INQUIRY
<b>PSI-03-01-04-02</b>	The implementation shall publish the inquiries to all new participating providers using the Event API.	-	P&S_059, P&S_062, P&S_102	POOLING
<b>PSI-03-01-04-03</b>	The implementation shall publish cancellations of inquiries for the case that previously participating providers are removed from the inquiry using the Event API.	-	-	POOLING
<b>PSI-03-01-04-04</b>	The implementation should filter the list of participating providers sent to them.	While the list in the PSS contains all providers, the message sent to provider A does only contain their entry, not the one of provider B and C. This has to be merged correctly when updates are received.	-	POOLING
<b>PSI-03-01-04-05</b>	The interface shall reject updates of already completed or cancelled customer inquiries in a PSS.	-	-	INQUIRY, SEC

Table 4.45: Requirements for updating a customer inquiry.

#### 4.3.1.5 REQ-03-01-05-Cancel\_Customer\_Inquiry

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-01-05-01</b>	The interface shall allow a customer to cancel an existing customer inquiry in a PSS.	-	P&S_034, P&S_035	INQUIRY

Table 4.46: Requirements for removing a customer inquiry.

## 4.3.2 REQ-03-02-Product\_Order\_Management

### 4.3.2.1 REQ-03-02-01-Create\_Product\_Order

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-02-01-01</b>	The interface shall allow a user or a user organisation to create a product order to a PSS.	-	P&S_194	ORDER
<b>PSI-03-02-01-02</b>	The interface shall allow a PSS to notify a provider that an order has been created.	-	-	ORDER
<b>PSI-03-02-01-03</b>	The implementation shall publish the creation of orders to other participating parties using the Event API.	-	-	ORDER
<b>PSI-03-02-01-04</b>	The interface shall allow user organisations to submit orders on behalf of their user community.	-	P&S_194	ORDER

Table 4.47: Requirements for creating product order.

#### 4.3.2.2 REQ-03-02-02-Update\_Product\_Order

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-02-02-01</b>	The interface shall allow a user and a provider to update an existing order in a PSS.	-	-	ORDER
<b>PSI-03-02-02-02</b>	The interface shall allow a PSS to notify a provider that an order has been updated.	-	-	ORDER
<b>PSI-03-02-02-03</b>	The interface shall allow a provider to notify a PSS about an order state change.	-	-	ORDER
<b>PSI-03-02-02-04</b>	The interface shall allow a user and a provider to control write access to the orders they have created in the PSS.	-	-	ORDER, SEC

Table 4.48: Requirements for updating product order.

#### 4.3.2.3 REQ-03-02-03-View\_Product\_Order

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-02-03-01</b>	The interface shall allow a user and a provider to retrieve a product order from a PSS.	This allows to monitor active missions, reservations and orders, if a monitoring system is included in a PSS.	P&S_201	ORDER
<b>PSI-03-02-03-02</b>	The interface shall allow a user and a provider to control read access to a product order that is applicable to them in the PSS.	-	P&S_201	ORDER, SEC

Table 4.49: Requirements for viewing a product order

#### 4.3.2.4 REQ-03-02-04-View\_All\_Product\_Orders

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-02-04-01</b>	The interface shall allow a user and a provider to retrieve all product orders that are applicable to them in a PSS.	This allows to monitor active missions, reservations and orders, if a monitoring system is included in a PSS.	P&S_201	ORDER

Table 4.50: Requirements for viewing all product orders

### 4.3.3 REQ-03-03-Customer\_Bill\_Management

#### 4.3.3.1 REQ-03-03-01-Create\_Customer\_Bill

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-03-01-01</b>	The interface shall allow a provider to create a customer bill to a PSS.	-	-	ORDER
<b>PSI-03-03-01-02</b>	The interface shall allow a provider to specify a debtor other than the product user.	-	P&S_041	ORDER
<b>PSI-03-03-01-03</b>	The interface shall allow a provider to specify multiple related parties for a bill.	-	P&S_195	ORDER
<b>PSI-03-03-01-04</b>	The implementation may intercept and transform a customer bill before delivering it to the customer.	-		ORDER

Table 4.51: Requirements for creating customer bill.

#### 4.3.3.2 REQ-03-03-02-Update\_Customer\_Bill

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-03-02-01</b>	The interface shall allow a provider to change only the state of a customer bill, for example, to inform the PSS that the bill has been paid.	-	-	ORDER
<b>PSI-03-03-02-02</b>	The interface shall allow a provider to control write access to a customer bill they have created in the PSS.	-	-	ORDER, SEC

Table 4.52: Requirements for updating customer bill.

## 4.3.3.3 REQ-03-03-03-View\_Customer\_Bill

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-03-03-01</b>	The interface shall allow a user or a provider to retrieve a customer bill from a PSS.	-	-	ORDER
<b>PSI-03-03-03-02</b>	The interface shall allow a provider to control read access to a customer bill that is created by them in the PSS.	-	-	ORDER, SEC
<b>PSI-03-03-03-03</b>	The interface should return a bill document as attachment(s).	-	-	ORDER
<b>PSI-03-03-03-04</b>	The interface should return the state of a customer bill (e.g. 'sent', 'settled', 'partiallyPaid', etc.).	-	-	ORDER
<b>PSI-03-03-03-05</b>	The interface may return the payment method of a customer bill.	-	-	ORDER
<b>PSI-03-03-03-06</b>	The interface may return the billing account of a customer bill.	-	-	ORDER
<b>PSI-03-03-03-07</b>	The interface may return a list of applied payments of a customer bill.	-	-	ORDER

Table 4.53: Requirements for viewing a customer bill.

#### 4.3.3.4 REQ-03-03-04-View\_All\_Customer\_Bills

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-03-04-01</b>	The interface shall allow a user or a provider to retrieve all customer bills that are applicable to them in a PSS.	-	-	ORDER
<b>PSI-03-03-04-02</b>	The interface shall allow a user or a provider to filter customer bills at least by bill number and state.	-	-	ORDER

Table 4.54: Requirements for viewing all customer bills.

#### 4.3.3.5 REQ-03-03-05-Withdraw\_Customer\_Bill

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-03-03-05-01</b>	The interface shall allow a provider to withdraw an existing customer bill in a PSS.	-	-	ORDER

Table 4.55: Requirements for withdrawal a customer bill.

## 4.4 REQ-04-Template\_Management

### 4.4.1 REQ-04-01-Resource\_Template\_Management

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-04-01-00-01</b>	The interface shall ensure that the resource templates are provider-agnostic.	-	-	POOLING
<b>PSI-04-01-00-02</b>	The interface shall allow only the governance to have write access to resource templates in the PSS.	-	-	POOLING, SEC

Table 4.56: Requirements for resource templates.

#### 4.4.1.1 REQ-04-01-01-Create\_Resource\_Template

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-04-01-01-01</b>	The interface shall allow the governance to register a resource template (with static and dynamic fields) to a PSS, containing all the necessary information that would allow a party to create a resource specification.	-	P&S_054	POOLING
<b>PSI-04-01-01-02</b>	The interface shall ensure that the resource templates are organised into a resource template catalog according to resource types.	-	-	POOLING

Table 4.57: Requirements for creating a resource template.

#### 4.4.1.2 REQ-04-01-02-Update\_Resource\_Template

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-04-01-02-01</b>	The interface shall allow the governance to update an existing resource template in a PSS.	-	-	POOLING
<b>PSI-04-01-02-02</b>	The interface shall allow only the governance to have write access to resource templates in the PSS.	-	-	POOLING, SEC

Table 4.58: Requirements for updating a resource template.

#### 4.4.1.3 REQ-04-01-03-Remove\_Resource\_Template

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-04-01-03-01</b>	The interface shall allow the governance to delete or mark an existing resource template from a PSS as invalid.	-	-	POOLING
<b>PSI-04-01-03-02</b>	The interface shall allow only the governance to delete resource templates in the PSS.	-	-	POOLING, SEC

Table 4.59: Requirements for deleting a resource template.

#### 4.4.1.4 REQ-04-01-04-View\_Resource\_Template

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-04-01-04-01</b>	The interface shall allow a party to request and retrieve a resource template from a PSS for a particular resource specification.	-	P&S_055, P&S_207	POOLING
<b>PSI-04-01-04-02</b>	The interface shall allow the governance to control read access to a resource template they have created in the PSS.	-	-	POOLING, SEC

Table 4.60: Requirements for viewing a resource template.

<b>PSI-05-02-04-02</b>	The interface shall allow a party to control read access to a service they have created in the PSS.	-	-	POOLING, SEC

Table 4.84: Requirements for viewing a service.

## 4.5.2.5 REQ-05-02-05-View\_All\_Services

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-02-05-01</b>	The interface shall allow a party to retrieve all services that are applicable to them in a PSS.	-	-	POOLING
<b>PSI-05-02-05-02</b>	The interface shall allow a party to filter services at least by a service type, region and frequency band (if applicable).	Allows the creation of statistics about usage in different geographical areas.	P&S_119, P&S_120	POOLING

Table 4.85: Requirements for viewing all services.

### 4.5.3 REQ-05-03-Product\_Inventory\_Management

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-03-00-01</b>	The implementation shall track the status of a product.	-	-	POOLING
<b>PSI-05-03-00-02</b>	The implementation shall manage the priority of a product.	-	P&S_131, P&S_132, P&S_133, P&S_134	POOLING

Table 4.86: Requirements for product inventory.

#### 4.5.3.1 REQ-05-03-01-Create\_Product

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-03-01-01</b>	The interface shall allow a party to register a product to a PSS.	-	-	POOLING
<b>PSI-05-03-01-02</b>	The interface shall allow products to be assigned to customers for a period of time.	-	-	POOLING

Table 4.87: Requirements for creating a product.

#### 4.5.3.2 REQ-05-03-02-Update\_Product

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-03-02-01</b>	The interface shall allow a party to update an existing product in a PSS.	-	-	POOLING

Table 4.88: Requirements for updating a product.

#### 4.5.3.3 REQ-05-03-03-Remove\_Product

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-03-03-01</b>	The interface shall allow a party to delete or mark an existing product in a PSS as invalid.	-	-	POOLING
<b>PSI-05-03-03-02</b>	The interface shall allow a party to delete only products they have created in the PSS.	-	-	POOLING, SEC

Table 4.89: Requirements for deleting a product.

#### 4.5.3.4 REQ-05-03-04-View\_Product

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-03-04-01</b>	The interface shall allow a party to retrieve a product from a PSS.	-	-	POOLING
<b>PSI-05-03-04-02</b>	The interface shall allow a party to control read access to a product they have created in the PSS.	-	-	POOLING, SEC

Table 4.90: Requirements for viewing a product.

#### 4.5.3.5 REQ-05-03-05-View\_All\_Products

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-03-05-01</b>	The interface shall allow a party to retrieve all products that are applicable to them in a PSS.	-	-	POOLING
<b>PSI-05-03-05-02</b>	The interface shall allow a party to filter products at least by a product type.	-	-	POOLING

Table 4.91: Requirements for viewing all products.

## 4.5.4 REQ-05-04-Stock\_Management

### 4.5.4.1 REQ-05-04-01-Check\_Product\_Stock

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-05-04-01-01</b>	The interface shall allow the PSS to check the product stock of a provider.	-	P&S_062, P&S_102	ORDER
<b>PSI-05-04-01-02</b>	The interface shall allow the provider system to respond with alternative products.	-	-	ORDER
<b>PSI-05-04-01-03</b>	The implementation shall signal immediate or delayed availability of check stock results via HTTP status codes.	-	-	ORDER

Table 4.92: Requirements for checking the product stock.

## 4.6 REQ-06-Quality\_Management

### 4.6.1 REQ-06-01-Service\_Level\_Objective\_Management

#### 4.6.1.1 REQ-06-01-01-Create\_Service\_Level\_Objective

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-01-01-01</b>	The interface shall allow a party to register a service level objective (SLO) to a PSS.	“Ordered services” refers to (Gov)SatCom services as offered by resource providers. Those services may include constraints given by resource providers for which the interface is not to be hold responsible.	P&S_042, P&S_043, P&S_044, P&S_155	MONITOR

Table 4.93: Requirements for creating a service level objective.

## 4.6.1.2 REQ-06-01-02-Update\_Service\_Level\_Objective

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-01-02-01</b>	The interface shall allow a party to update a service level objective (SLO) in a PSS.	“Ordered services” refers to (Gov)SatCom services as offered by resource providers. Those services may include constraints given by resource providers for which the interface is not to be hold responsible.	P&S_042, P&S_043, P&S_044, P&S_155	MONITOR

Table 4.94: Requirements for updating a service level objective.

#### 4.6.1.3 REQ-06-01-03-Remove\_Service\_Level\_Objective

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-01-03-01</b>	The interface shall allow a party to delete or mark an existing service level objective (SLO) in a PSS as invalid.	-	-	MONITOR
<b>PSI-06-01-03-02</b>	The interface shall allow a party to delete only service level objectives they have created in the PSS.	-	-	MONITOR

Table 4.95: Requirements for removing a service level objective.

#### 4.6.1.4 REQ-06-01-04-View\_Service\_Level\_Objective

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-01-04-01</b>	The interface shall allow a party to retrieve a service level objective from a PSS.	-	-	MONITOR
<b>PSI-06-01-04-02</b>	The interface shall allow a party to control read access to a service level objective they have created in the PSS.	-	-	MONITOR, SEC

Table 4.96: Requirements for viewing a service level objective.

#### 4.6.1.5 REQ-06-01-05-View\_All\_Service\_Level\_Objective

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-01-05-01</b>	The interface shall allow a party to retrieve all service level objectives that are applicable to them in a PSS.	-	-	MONITOR
<b>PSI-06-01-05-02</b>	The interface shall allow a party to filter services level objective at least by a service references.	-	-	MONITOR

Table 4.97: Requirements for viewing all service level objectives.

## 4.6.2 REQ-06-02-Service\_Level\_Specification\_Management

### 4.6.2.1 REQ-06-02-01-Create\_Service\_Level\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-02-01-01</b>	The interface shall allow a party to register a service level specification (SLS) to a PSS.	“Ordered services” refers to (Gov)SatCom services as offered by resource providers. Those services may include constraints given by resource providers for which the interface is not to be hold responsible.	P&S_042, P&S_043, P&S_044, P&S_155	MONITOR

Table 4.98: Requirements for creating a service level specification.

## 4.6.2.2 REQ-06-02-02-Update\_Service\_Level\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-02-02-01</b>	The interface shall allow a party to update a service level specification (SLS) in a PSS.	“Ordered services” refers to (Gov)SatCom services as offered by resource providers. Those services may include constraints given by resource providers for which the interface is not to be held responsible.	P&S_042, P&S_043, P&S_044, P&S_155	MONITOR

Table 4.99: Requirements for updating a service level specification.

#### 4.6.2.3 REQ-06-02-03-Remove\_Service\_Level\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-02-03-01</b>	The interface shall allow a party to delete or mark an existing service level specification (SLS) in a PSS as invalid.	-	-	MONITOR
<b>PSI-06-02-03-02</b>	The interface shall allow a party to delete only service level specification they have created in the PSS.	-	-	MONITOR

Table 4.100: Requirements for removing a service level specification.

#### 4.6.2.4 REQ-06-02-04-View\_Service\_Level\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-02-04-01</b>	The interface shall allow a party to retrieve a service level specification from a PSS.	-	-	MONITOR
<b>PSI-06-02-04-02</b>	The interface shall allow a party to control read access to a service level specification they have created in the PSS.	-	-	MONITOR, SEC

Table 4.101: Requirements for viewing a service level specification.

#### 4.6.2.5 REQ-06-02-05-View\_All\_Service\_Level\_Specification

Req. ID	Description	Comment / Understanding	Related Candidate Requirements	Category
<b>PSI-06-02-05-01</b>	The interface shall allow a party to retrieve all service level specification that are applicable to them in a PSS.	-	-	MONITOR

Table 4.102: Requirements for viewing all service level specification.

### 4.6.3 REQ-06-03-Key\_Indicator\_Management

#### 4.6.3.1 REQ-06-03-01-Create\_Key\_Indicator

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-03-01-01</b>	The interface shall allow the governance to register a key indicator (KPI or KQI) to a PSS.	-	MONITOR
<b>PSI-06-03-01-02</b>	The interface shall allow a service provider to register a key indicator (KPI or KQI) to a PSS.	-	MONITOR

Table 4.103: Requirements for creating a key indicator.

#### 4.6.3.2 REQ-06-03-02-Update\_Key\_Indicator

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-03-02-01</b>	The interface shall allow the governance to update a key indicator (KPI or KQI) in a PSS.	-	MONITOR
<b>PSI-06-03-02-02</b>	The interface shall allow a service provider to update a key indicator (KPI or KQI) in a PSS.	-	MONITOR
<b>PSI-06-03-02-03</b>	The interface shall allow a service provider to update only key indicators they have created in the PSS.	-	MONITOR

Table 4.104: Requirements for updating a key indicator.

#### 4.6.3.3 REQ-06-03-03-Remove\_Key\_Indicator

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-03-03-01</b>	The interface shall allow the governance to delete or mark an existing key indicator in a PSS as invalid.	-	MONITOR
<b>PSI-06-03-03-02</b>	The interface shall allow a service provider to delete or mark an existing key indicator in a PSS as invalid.	-	MONITOR
<b>PSI-06-03-03-03</b>	The interface shall allow a service provider to delete only key indicators they have created in the PSS.	-	MONITOR
<b>PSI-06-03-03-04</b>	The interface shall allow a party to delete only a key indicator that is not used by an active service level objective .	-	MONITOR

Table 4.105: Requirements for removing a key indicator.

#### 4.6.3.4 REQ-06-03-04-View\_Key\_Indicator

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-03-04-01</b>	The interface shall allow a party to retrieve a key indicator from a PSS.	-	MONITOR
<b>PSI-06-03-04-02</b>	The interface shall allow a party to control read access to a key indicator they have created in the PSS.	-	MONITOR, SEC

Table 4.106: Requirements for viewing a key indicator.

## 4.6.4 REQ-06-04-Performance\_Monitoring\_Job\_Management

### 4.6.4.1 REQ-06-04-01-Create\_Performance\_Monitoring\_Job

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-04-01-01</b>	The interface shall allow a user or an user organisation to create a performance monitoring job in a PSS.	-	MONITOR
<b>PSI-06-04-01-02</b>	The interface may allow to create only on-demand performance monitoring jobs.	-	MONITOR
<b>PSI-06-04-01-03</b>	The interface shall allow to specify service-specific key indicators for monitoring	-	MONITOR
<b>PSI-06-04-01-04</b>	The interface shall allow to specify for which entity (service or resource) monitoring should be performed	-	MONITOR
<b>PSI-06-04-01-05</b>	The PSS implementation shall perform the monitoring of key indicators according to requested granularity, reporting period, output and result format, and schedule definition.	-	MONITOR

Table 4.108: Requirements for creating a performance monitoring job.

#### 4.6.4.2 REQ-06-04-02-Update\_Performance\_Monitoring\_Job

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-04-02-01</b>	The interface shall allow a user or a user organisation to update definition a performance monitoring job.	-	MONITOR
<b>PSI-06-04-02-02</b>	The interface shall allow a user or a user organisation to suspend and resume a performance monitoring job.	-	MONITOR
<b>PSI-06-04-02-03</b>	The interface shall allow a user or a user organisation to update only performance monitoring jobs they have created in the PSS.	-	MONITOR

Table 4.109: Requirements for updating a performance monitoring job.

#### 4.6.4.3 REQ-06-04-03-Cancel\_Performance\_Monitoring\_Job

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-04-03-01</b>	The interface shall allow a user or a user organisation to cancel a performance monitoring job.	-	MONITOR
<b>PSI-06-04-03-02</b>	The interface shall allow a party to cancel only performance monitoring jobs they have created in the PSS.	-	MONITOR
<b>PSI-06-04-03-03</b>	The PSS implementation shall stop monitoring performance and producing results related to the cancelled performance monitoring job.	-	MONITOR

Table 4.110: Requirements for cancelling a performance job.

#### 4.6.4.4 REQ-06-04-04-View\_Performance\_Monitoring\_Job

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-04-04-01</b>	The interface shall allow a party to retrieve a performance monitoring job from a PSS.	-	MONITOR
<b>PSI-06-04-04-02</b>	The interface shall allow a party to control read access to a performance monitoring job they have created in the PSS.	-	MONITOR, SEC

Table 4.111: Requirements for viewing a performance monitoring job.

#### 4.6.4.5 REQ-06-04-05-View\_All\_Performance\_Monitoring\_Job

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-04-05-01</b>	The interface shall allow a party to retrieve all performance monitoring jobs that are applicable to them in a PSS.	-	MONITOR
<b>PSI-06-04-05-02</b>	The interface shall allow a party to retrieve filter performance monitoring jobs they want to receive.	-	MONITOR

Table 4.112: Requirements for viewing all performance monitoring jobs.

## 4.6.5 REQ-06-05-Performance\_Monitoring\_Report\_Management

### 4.6.5.1 REQ-06-05-01-Create\_Performance\_Monitoring\_Report

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-05-01-01</b>	The interface shall allow a user or an user organisation to request an ad-hoc performance monitoring report in a PSS.		MONITOR
<b>PSI-06-05-01-02</b>	The provider shall provide results of key indicators monitoring according to requested granularity, reporting period, output and result format, and schedule definition.	-	MONITOR

Table 4.113: Requirements for creating a performance monitoring report.

#### 4.6.5.2 REQ-06-05-02-View\_Performance\_Monitoring\_Report

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-05-02-01</b>	The interface shall allow a party to retrieve a performance monitoring report produced by a performance monitoring report they have created in the PSS.	-	MONITOR
<b>PSI-06-05-02-02</b>	The interface shall allow a party to control read access to a performance monitoring report produced by a performance monitoring report they have created in the PSS.	-	MONITOR, SEC

Table 4.114: Requirements for viewing a performance monitoring report.

#### 4.6.5.3 REQ-06-05-03-View\_All\_Performance\_Monitoring\_Report

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-05-03-01</b>	The interface shall allow a party to retrieve all performance monitoring reports that are applicable to them in a PSS.	-	MONITOR
<b>PSI-06-05-03-02</b>	The interface shall allow a party to retrieve filter performance monitoring reports they want to receive.	-	MONITOR

Table 4.115: Requirements for viewing all performance monitoring reports.

## 4.6.6 REQ-06-06-Alarm\_Management

### 4.6.6.1 REQ-06-06-01-View\_Alarm

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-06-01-01</b>	The interface shall allow a party to retrieve an alarm from a PSS.	-	MONITOR
<b>PSI-06-06-01-02</b>	The interface shall allow a party to control read access to an alarm they have created in the PSS.	-	MONITOR, SEC

Table 4.116: Requirements for viewing an alarm.

#### 4.6.6.2 REQ-06-06-02-View\_All\_Alarm

Req. ID	Description	Comment / Understanding	Category
<b>PSI-06-06-02-01</b>	The interface shall allow a party to retrieve all alarms that are applicable to them in a PSS.	-	MONITOR

Table 4.117: Requirements for viewing all alarms.
